**An article related to our smart table products has been featured
in a casino industry magazine.**

An article was published on November 20, 2024, by Inside Asian Gaming (IAG), a leading magazine in the casino gaming industry, highlighting the adoption of smart tables at Marina Bay Sands, a major integrated resort in Singapore, and featuring our company's smart table technology.

The article discusses:

- The collaboration between Sands and Angel to develop a comprehensive smart table solution incorporating RFID technology, video analytics, and artificial intelligence.
- The successful deployment of smart tables at all VIP tables, including Rolling Tables and Premium Tables, at Marina Bay Sands by mid-2024.
- The plan to implement smart tables across all gaming tables at Marina Bay Sands by the end of 2025.

Additionally, the article concludes by mentioning that our Smart Table Solution has also been adopted at various Sands China casinos in Macau.
