PRESS RELEASE

28 May 2025

G2E Asia Awards 2025

Angel's Smart Table Wins 「Best Table Game Awards」

We are thrilled to announce that Angel Group's proprietary casino smart table has been awarded "Best Table Game Awards" at the G2E Asia Awards 2025 (Organized by Reed Exhibitions) during the event held in Macau on 6 May 2025.

This award recognizes the industry-wide impact of Angel's innovative technology. The smart table system employs a "Hybrid" AI and RFID (Radio-Frequency Identification) solution that precisely tracks the quantity, type, and positioning of chips on the gaming table while digitizing all data in real time. Integrated Resorts (IRs) adopting this system gain instant access to game analyses, enabling transformative upgrades to security protocols, operational efficiency, data-driven marketing strategies, and guest satisfaction – redefining traditional IR management standards.

G2E Asia is the continent's premier annual gaming exhibition, held from 7 May (Wednesday) to 9 May (Friday), 2025 at The Venetian Macao. The "G2E Asia Awards 2025" honours the most groundbreaking gaming products across categories, with winners selected through panel voting by industry experts.
