PRESS RELEASE

August 24, 2026

Angel Reaffirms Angel Eye's Commitment to Fairness, Security, and Regulatory Compliance

Angel today reaffirmed its unwavering commitment to product integrity, regulatory compliance and the highest standards of security in relation to its card-reading device, Angel Eye.

For more than two decades, Angel has been developing and delivering innovative gaming security solutions for the global casino industry. Since the introduction of the first generation of Angel Eye in 2003, more than 28,000 units of Angel Eye have been installed at leading casinos worldwide and currently been in operation across numerous casinos across the world.

The Angel Eye Series was developed with the mission of supporting fairness and transparency between casinos and players in baccarat gaming. As a critical solution designed to safeguard the integrity of baccarat operations, Angel Eye identifies the value and suit of each playing card after it is drawn from the shoe, helping ensure that neither the casino nor the player receives an unfair advantage.

The technology is designed and developed in accordance with the regulatory requirements established by each market and jurisdiction in which it is deployed. The Angel Eye Series undergoes rigorous testing and certification by government-approved testing laboratories and is introduced to casino operators only after obtaining the necessary approvals and certifications required in each applicable jurisdiction.

Angel will continue to develop advanced gaming security solutions that enhance operational confidence, fairness, and trust across the global casino industry.

天使集團重申 Angel Eye 在公平、安全與監管合規的承諾

天使集團今日重申其對產品尤其是讀卡設備 Angel Eye 的完整性、法規遵循及最高安全標準的堅定承諾。

二十多年來，天使集團一直致力於為全球娛樂場產業研發並提供創新的博彩安全解決方案。自 2003 年推出第一代 Angel Eye 以來，已於全球各地頂尖娛樂場安裝超過 28,000 台 Angel Eye，目前亦於世界各地眾多的娛樂場中持續運作。

Angel Eye 系列產品的研發使命，旨在維護在百家樂遊戲中娛樂場與玩家之間的公平與透明度。作為保障百家樂營運誠信的關鍵解決方案， Angel Eye 能在撲克牌從牌靴中抽出後辨識其點數與花色，有助於確保娛樂場與玩家雙方皆不會獲得不公平的優勢。

該技術針對其所部署的各個市場及管轄區域所制定的法規要求進行設計與研發。Angel Eye 系列經過由政府認可的測試實驗室進行嚴格檢測與認證，並僅在獲得各相關管轄區域所需的必要批准與認證後，才會引進予賭場營運商。

天使集團將繼續研發先進的博彩安全解決方案，以提升全球娛樂場產業的營運信心、公平性與信任度。
